Abdominal Imaging

Volume 19
1994

Editors-in-Chief

Morton A. Meyers
School of Medicine, Health Sciences Center, SUNY at Stony Brook, Stony Brook, NY 11794, USA

Gary G. Ghahremani
Evanston Hospital-Northwestern University, 2650 Ridge Avenue, Evanston, IL 60201, USA

Section Editors

Joshua A. Becker
Brooklyn, New York, USA
Genitourinary Radiology

Morton A. Bosniak
New York, New York, USA
Genitourinary Radiology

Richard M. Gore
Evanston, Illinois, USA
Book Reviews

E. Maureen White
Evanston, Illinois, USA
Abstracts of Literature

Editorial Board

Clive Bartram
London, UK

Michael E. Bernardino
Atlanta, Georgia, USA

Ludovico Dalla-Palma
Trieste, Italy

N. Reed Dunnick
Ann Arbor, Michigan, USA

Michiel A.M. Feldberg
Utrecht, The Netherlands

R. Felix
Berlin, Germany

Joseph T. Ferrucci, Jr.
Boston, Massachusetts, USA

David Gelfand
Winston Salem, North Carolina, USA

Jan H. Göthlin
Göteborg, Sweden

Nicholas Gourtsoyiannis
Crete, Greece

Rolf W. Günther
Aachen, Germany

Man-Chung Han
Seoul, Korea

Robert R. Hattery
Rochester, Minnesota, USA

Hedvig Hricak
San Francisco, California, USA

Igor Laufer
Philadelphia, Pennsylvania, USA

Errol Levine
Kansas City, Kansas, USA

Marc S. Levine
Philadelphia, Pennsylvania, USA

Alexander R. Margulis
San Francisco, California, USA

Masakazu Maruyama
Tokyo, Japan

Didier G. Mathieu
Paris, France

Bruce L. McClennan
St. Louis, Missouri, USA

Roberto Passariello
Rome, Italy

Cesar S. Pedrosa
Madrid, Spain

J.W.A.J. Reeders
Amsterdam, The Netherlands

Hikoo Shirakabe
Ichikawa City, Japan

David H. Stephens
Rochester, Minnesota, USA

William M. Thompson
Minneapolis, Minnesota, USA

Eric van Sonnenberg
Galveston, Texas, USA

Pierre-Jean Valette
Lyon, France

Jeffrey Weinreb
New York, New York, USA

Robert K. Zeman

Subject Index

(A) = Abstract

Abdomen
—, computed tomography of 210
—, MRI of pseudotumors and simulated lymphadenopathy in 503
—, postoperative imaging of complications in 405
—, spiral computed tomography of 213
Abdominal aneurysms
—, color Doppler ultrasonography of hemodynamics of 410
Abdominal trauma
—, computed tomography management of (A) 186
—, nonoperative management of (A) 185
—, periportal low-attenuation zones in children following (A) 186
Abscess
—, Surgicel after laparoscopic cholecystectomy mimicking . . . 345
Acetazolamide
—, nephrocalcinosis induced by 466
Acquired immunodeficiency syndrome (AIDS)
—, adrenal leiomyoma in patient with 259
—, effect on biliary and pancreatic ducts 417, 423
—, idiopathic esophageal ulceration in 2
—, polypoid cholangitis related to (A) 283
Acute cholecystitis
—, hemorrhage in 405
Adenocarcinoma
—, gastric, common variable immunodeficiency and 501
—, gastric, depth of invasion and histology of 521, 532
Adhesions
—, as indicator of adult enteric intussusception 11
Adrenal gland
—, calcification associated with secondary amyloidosis 554
—, giant myelolipomas of 165
Adrenal neoplasms
—, extension into inferior vena cava 359
—, in AIDS patients, MRI of 259
—, incidental discovery of (A) 285
Age
—, simple renal cysts related to (A) 184, 384
Amyloidosis
—, abdominal visceral calcification in 554
Anal fistulae
—, magnetic resonance imaging of (A) 382
Anal sphincter
—, endoanal ultrasound identification of defects of (A) 183
—, sonographic, manometric, and myographic evaluation of (A) 282
—, ultrasound and manometry of defects of (A) 568
Angiography
—, appraisal of TIPS (A) 87
—, blunt abdominal trauma treated by (A) 185
—, of hepatic angiomyolipoma 540, 552
—, of hepatocellular carcinoma with tumor thrombus 313
—, of liver neoplasms, pathologic correlation with images from 43
—, of pancreatic apudomas (A) 184, 284
—, preoperative evaluation of liver transplant candidates by (A) 482
—, preoperative visceral, effect on intraoperative strategy during Whipple procedure (A) 88
Angiomyolipoma
—, imaging and pathological appearance of 540, 552
—, hepatic, classic and unusual presentations of 543, 552
—, hepatic, fat suppression, Gd-enhanced MRI of 549, 552
—, hepatic, in tuberous sclerosis 537
—, renal, natural history of (A) 384
Angled gantry
—, use in CT-guided biopsy 217
Anorectal disorders
—, management of 349
Antegrade cholecystography
—, common duct calculi found by (A) 184
Antegrade pyelography
—, pelvicalyceal dilatation in renal allografts studied by (A) . . 285
Anterior rectocele
—, measuring methods for (A) 568
Antral flattening
—, NSAID induced 295
Appendicitis
—, accuracy of diagnosis by ultrasound versus surgeon's impression (A) 182
—, perforation from barium enema use to diagnose (A) 182
Appendix epiploica
—, of colon, infarction of 449
Arterial blood pressure
—, renal cysts related to (A) 184
Ascites
—, associated with endometriosis 475
—, enhanced by Gd-DTPA on MRI (A) 87
—, malignant peritoneal mesothelioma presenting as 27
Balloon dilatation
—, of obstructing gastrointestinal strictures 102
Barium enema
—, double contrast, colonic investigation by (A) 568
—, double contrast, continent ileostomy reservoir evaluated by 116, 124
—, double contrast, in patients with Behçet's colitis 132
—, perforation from (A) 182
Behçet's disease
—, colitis in 132
—, superior mesenteric artery aneurysm in 333
Bile duct
—, aberrant, intersegmental branch in 425
—, AIDS-related changes in 417, 423
—, percutaneous drainage of 512
Bile duct obstruction
—, imaging techniques for diagnosis of 243
—, use of ECRP in 30
Biliary abnormalities
—, extrahepatic portal venous obstruction and (A) 88
Biliary sludge
—, in pregnancy (A) 88
Biliary stent
—, percutaneous placement of through T-tube tract 512
Biliary tract
—, antegrade cholecystography of (A) 184
—, operative ultrasonography of (A) 283
Biopsy
—, dual-angled CT used in 217
Bladder neoplasms
—, computed tomography of 272
—, MRI in staging of (A) 90
—, pelvic ultrasound in detection and followup of 270
Bladder rupture
—, associated with pelvic fracture caused by blunt trauma (A) 90
Blunt trauma
—, of testes (A) 384
Bone marrow transplant
—, gallbladder sludge formation after 57
—, graft-vs-host disease as complication of 191
Book reviews
—, abdominal sonography 187
—, acute pancreatitis: diagnosis and therapy 572
—, alimentary tract imaging 92
—, clinical radiology and endoscopy of the colon 485
—, cross-sectional abdominal anatomy: CT, MRI, and ultrasound 91
—, dynamic radiology of the abdomen: normal and pathologic anatomy 484
—, early detection of ovarian carcinoma with transvaginal sonography 484

—, gastrointestinal oncology . . . 386
—, gastrointestinal pathology and its clinical implications . . . 188
—, gastrointestinal radiology . . . 286
—, genitourinary tract disease . . . 188
—, imaging atlas of the normal gallbladder and its variants . . . 572
—, magnetic resonance imaging . . . 91
—, MRI of the abdomen with CT correlation . . . 484
—, motility disorders of the gastrointestinal tract . . . 385
—, nuclear medicine in gastroenterology . . . 187
—, portal hypertension: varices and variceal hemorrhage . . . 572
—, principles and practice of surgery for the colon, rectum, and anus 287
—, radiology of the small bowel . . . 286
—, textbook of gastrointestinal radiology . . . 386
—, the esophagus . . . 91
—, the pancreas—biology, pathobiology, and disease . . . 286
—, the puzzle people: memoirs of a transplant surgeon . . . 92
—, ultrasound in obstetrics and gynecology . . . 385
Bowel
—, normal variations of anatomy of . . . 446
—, perforations after cardiac surgery . . . 405
Bowel infarction
—, secondary to mesenteric venous thrombosis (A) . . . 86
Breast carcinoma
—, metastatic, morphologic changes of the liver following chemotherapy . . . 39
Budd-Chiari syndrome
—, magnetic resonance imaging of . . . 325
Carbon dioxide
—, as contrast medium in intraarterial digital subtraction angiography 330
Carcinoid syndrome
—, role in motor dysfunction of small intestine and colon (A) 281
Carcinoid tumors
—, pancreatic, CT findings of . . . 221
Cardiac surgery
—, gastrointestinal complications following . . . 405
Castleman disease
—, in retroperitoneum . . . 342
—, pancreatic localization of . . . 160
Ceruletide
—, effect on gallbladder emptying . . . 235
Chemical splanchnicectomy
—, effect on pain caused by pancreatic carcinoma (A) . . . 89
Chemotherapy
—, for metastatic breast carcinoma, effect on the liver . . . 39
Chest pain
—, evaluated with radionuclide esophageal test . . . 84
—, ultrasonographic evaluation of (A) . . . 482
Children
—, CT in managing blunt abdominal trauma in (A) . . . 186
—, periportal low-attenuation zones following blunt trauma in (A) 186
Cholangiocarcinoma
—, combined with hepatocellular carcinoma, clinical features and CT findings of (A) . . . 282
—, comparison of images with pathologic specimens of . . . 43
Cholangiocellular carcinoma
—, mixed with hepatocellular carcinoma, MRI of . . . 430
Cholangiography
—, aberrant bile duct with intersegmental bridge detected by . . . 425
—, after spiral CT image processing, of gallbladder biliary ducts (A) 184
—, magnetic resonance, obstructive jaundice evaluated by (A) 283
—, retrograde, AIDS-related cholangitis studied by . . . 417
Cholangiopancreatitis
—, AIDS and . . . 417
Cholecystectomy
—, common bile duct size before and after . . . 151
—, laparoscopic, complications and appearance after . . . 143
—, laparoscopic, free intraperitoneal gallstones following (A) 283
—, laparoscopic, subhepatic collections complicating . . . 248
—, laparoscopic, Surgicel mimicking abscess after . . . 345
—, with and without drainage (A) . . . 383
Cholecystography
—, antegrade, of common duct calculi (A) . . . 184
—, of choledochal cysts . . . 243
—, with fatty meal, compared with ultrasound for evaluating gallbladder emptying . . . 235
Choledochal cyst
—, comparison of imaging techniques for . . . 243
—, diagnosed during pregnancy by MRI . . . 61
Choledocholithiasis
—, comparison of diagnostic tools for (A) . . . 570
Cholelithiasis
—, coexisting with nephrocalcinosis and umbilical vein calcification in premature infant . . . 559
Chronic hematospermia
—, transrectal ultrasonography of (a) . . . 571
Ciliated foregut cysts
—, US, CT, and MRI of . . . 150
Clostridial sepsis
—, as complication of leukemia . . . 451
Cluster scanning
—, optimization of computed tomography by using . . . 210
Colitis
—, Behçet's, double-contrast barium enema examination in . . . 132
Colon
—, hemangioma in . . . 18
—, inflammation of appendix epiploicae on . . . 449
—, pancreatitis and complications of (A) . . . 381
—, role of carcinoid diarrhea in motor dysfunction of (A) . . . 281
—, variations in position of . . . 446
Colon carcinoma
—, CT staging and detection of recurrence of . . . 441
—, metastatic, as indicator of adult enteric intussusception . . . 11
—, survival rates after curative hepatic resection for . . . 317
Colonic polyps
—, double-contrast barium enema and sigmoidoscopy for (A) 568
Colonic wall invasion
—, endoscopic ultrasonography of . . . 21
Color Doppler ultrasonography
—, angiogenesis in ovarian neoplasms assessed by (A) . . . 483
—, hemodynamics of macroscopic portal-hepatic venous shunt studied by . . . 153
—, of atypical myoid smooth muscle tumor of prostate . . . 468
—, of small abdominal aneurysms . . . 410
—, of wandering spleen with torsion . . . 459
—, percutaneous transhepatic biliary drainage guided by . . . 147
—, renal masses characterized by (A) . . . 89
Colorectal neoplasms
—, associated with congenital anomalies of urinary tract (A) . . . 87
—, computed tomography for preoperative assessment of (A) 281
—, magnetic resonance imaging of (A) . . . 182
Colpocystodefectography
—, assessment of (A) . . . 281
Common bile duct
—, diameter before and after cholecystectomy . . . 251
—, diameter changes in patients with diabetes or cholelithiasis 427
Common duct calculi
—, antegrade cholecystography of (A) . . . 184
Common variable immunodeficiency
—, gastric adenocarcinoma and . . . 501
Computed tomography (CT)
—, accuracy in detecting recurrent ovarian cancer (A) . . . 90
—, accuracy of diagnosis of paraesophageal venous collaterals by (A) . . . 481
—, after cholangiography, of gallbladder and biliary duct (A) . . . 184
—, after enucleation of renal cell carcinoma . . . 361
—, after laparoscopic cholecystectomy . . . 143
—, after radical prostatectomy (A) . . . 185
—, blunt abdominal trauma treated by (A) . . . 185, 186

—, clostridial gas gangrene complicating leukemia seen by . . . 451
—, cluster scanning to optimize 210
—, combined with fine-needle aspiration cytology, for lymph node staging of prostatic carcinoma (A) 571
—, correlated with nuclear grading of renal cell carcinoma . . . 262
—, delayed high-dose iodine, of potentially resectable liver tumors (A) 183
—, dual angulation in 217
—, during arterial portography, of potentially resectable liver tumors (A) 183
—, ectopic supernumerary kidney found by 374
—, esophageal varices diagnosed by (A) 481
—, fluid accumulation patterns in splenic trauma seen by . . . 515
—, in TN staging of gastric carcinoma (A) 85
—, liver neoplasms detected by 320
—, morphologic changes in liver after chemotherapy seen by . . . 39
—, normal variations in bowel anatomy studied by 446
—, of abdominal visceral calcification in amyloidosis 554
—, of adrenal leiomyoma 259
—, of choledochal cysts 243
—, of combined hepatocellular carcinoma and cholangiocarcinoma (A) 282
—, of diffuse cavernous hemangioma 18
—, of eosinophilic cystitis 272
—, of Fournier's gangrene 471
—, of gallbladder carcinoma 304
—, of gallbladder perforation 239
—, of gas-containing liver abscess 47
—, of gastric metastases from retroperitoneal leiomyosarcoma . . . 298
—, of gastritis cystica polyposa 8
—, of giant adrenal myelolipomas 165
—, of hepatic angiosarcoma . . . . . 283(A), 540, 552
—, of hepatic focal nodular hyperplasia 34
—, of hepatic foregut cysts 150
—, of hepatocellular carcinoma with tumor thrombus 313
—, of infarcted epiploic appendages of colon 449
—, of inguinal hernia (A) 567
—, of intestinal infarction (A) 86
—, of intestinal obstruction from adhesions (A) 86
—, of liver neoplasms, pathologic correlation with images from 43
—, of malignant peritoneal mesothelioma 27
—, of pancreatic adenocarcinoma (A) 89
—, of pancreatic apudomas (A) 184, 284
—, of pancreatic Castleman disease 160
—, of pancreatic carcinoma (A) 284
—, of pancreatic lymphoepithelial cyst 232
—, of periampullary cancer (A) 284
—, of pneumatosis cystoides intestinalis 137
—, of renal cysts 366
—, of renal leiomyoma 67, 70
—, of retroperitoneal malignant mesenchymoma 82
—, of segmental prolonged cortical nephrogram 556
—, of wandering spleen with torsion 459
—, pancreatic carcinoid tumors diagnosed by 221
—, preoperative assessment of colorectal carcinoma using (A) 281
—, recurrence of colorectal carcinoma detected by 441
—, resectability of hepatic colorectal metastases predicted by (A) 569
—, role in staging esophageal and proximal gastric malignancies (A) 85
—, spiral, of the abdomen 213
—, urinary bladder rupture diagnosed by 177
—, x-ray, of neuroendocrine tumors (A) 383
Computed tomography arterial portography (CTAP)
—, effect on survival rates for hepatic resection 317
—, effects of nontumorous defects in left hepatic lobe during (A) 87
—, liver neoplasms detected by 320
—, mesenteric vessels and portal vein involvement in pancreatic adenocarcinoma detected by 413
—, resectability of hepatic colorectal metastases predicted by (A) 569
Continent ileostomy reservoir
—, radiologic findings of complications of 124
—, radiology of 116
Contrast media
—, acid resistant, follow-through of small bowel using (A) . . . 86
—, barium sulfate vs. nonionic low-osmolar in small bowel obstruction (A) 481
—, carbon dioxide used as in digital subtraction angiography . . . 330
—, iodized oil as in MRI 507
—, negative, abdominal MRI using (A) 86
—, oily, used in computed tomography of liver neoplasms . . . 43
—, role of retrograde air insufflation in MRI as 503
—, use of air as 95
Corpus cavernosum
—, idiopathic segmental thrombosis of 564
Courvoisier's sign
—, used in ultrasonography of gallbladder (A) 570
Crohn's disease
—, differential diagnosis of ulcerative colitis and 395
—, endosonographic features of lower pelvic region in (A) . . . 87
—, endovaginal ultrasonography detection of 400
—, instant enema used in (A) 86
—, use of transabdominal ultrasonography in investigation of (A) 381
Cystosarcoma phyllodes
—, of prostate, MRI findings of 180
Cystoscopic clot evacuation
—, urinary bladder rupture following evacuation of 177
Defecation disorders
—, role of defecography in management of 349, 355
Defecography
—, effect of results of on clinical management of 349
—, for assessing anterior rectocele (A) 568
—, role in diagnosis and clinical decision-making in defecation disorders 355
Diabetes
—, gallbladder emptying and common bile duct changes in patients with 427
—, insulin-dependent, abnormal pancreatic ductograms in patients with (A) 570
Diarrhea
—, in carcinoid syndrome, effect on motor dysfunction of small intestine and colon (A) 281
Digital subtraction angiography
—, intravenous, potential live-kidney donors studied by 461
—, retrograde visualization of portal vein using 330
Diuretic renography
—, limitations of use in ureteropelvic junction obstruction . . . 78
Diverticular disease
—, double-contrast barium enema and sigmoidoscopy for (A) . . . 568
Doppler ultrasonography
—, of portal vein flow (A) 283
—, of renal masses (A) 483
—, preoperative evaluation of liver transplant candidates by (A) 282
—, proctoscopic, in treating bleeding hemorrhoids (A) 482
—, pulsatility and resistance indices in intrarenal arteries studied by 369
—, renal hemodynamics in obstructive uropathy evaluated by (A) 89
—, reversed diastolic blood flow in renal transplants seen by (A) 483
—, shunt stenosis after TIPS evaluated by (A) 569
Double-contrast study
—, pirenzepine vs scopolamine methylbromide used in 201
Early gastric cancer
—, depth of invasion and histologic type of 521, 532
—, transabdominal ultrasonography of 527, 532
Ectopic supernumerary kidney
—, as cause of pelvic mass 374
Endocrine neoplasms
—, somatostatin receptor scintigraphy and x-ray CT imaging of (A) 383
Endometriosis
—, ascites and pleural effusions associated with 475
—, efficacy of hysterosalpingography in evaluating 278
Endoscopic retrograde cholangiopancreatography (ERCP)

—, of AIDS-related cholangitis . . . 417
—, of AIDS-related polypoid cholangitis (A) . . . 283
—, of traumatic pancreatitis . . . 162
—, therapeutic applications of . . . 30
Endoscopic sphincterotomy
—, as interventional technique . . . 30
—, gallbladder function after (A) . . . 184
Endoscopic ultrasonography
—, anal, idiopathic fecal incontinence evaluated by (A) . . . 382
—, anal sphincter thickness measured by (A) . . . 87
—, choledocholithiasis diagnosed by (A) . . . 570
—, colonic wall invasion by adjacent diseases assessed by . . . 21
—, gastrointestinal lesions evaluated by (A) . . . 567
—, in TN staging of gastric carcinoma (A) . . . 85
—, of esophageal carcinoma (A) . . . 567
—, of rectum in cirrhotic portal hypertension (A) . . . 183
Endovaginal ultrasonography
—, detection of Crohn's ileitis by . . . 400
Enteral feeding
—, fluoroscopically guided percutaneous gastrostomy as method for 195
Enteroclysis
—, adult enteric intussusception observed by . . . 11
—, nasointestinal tube for . . . 108
—, small bowel, role in detecting small bowel disease . . . 113
Eosinophilic cystitis
—, computed tomography of . . . 272
—, ultrasonographic detection and control of . . . 270
Esophageal carcinoma
—, computed tomography of (A) . . . 85
—, nonoptic endosonography of (A) . . . 567
Esophageal varices
—, influence of paraesophageal venous collaterals on diagnosis of (A) . . . 481
Esophagitis
—, caused by Motrin tablet . . . 6
Esophagography
—, esophageal ulceration examined by . . . 2
Esophagus
—, calcification of, after corrosive injury . . . 293
—, drug-induced stricture of . . . 6
—, videofluoroscopy of, in graft-vs-host disease . . . 191
Extrahepatic portal venous obstruction
—, biliary abnormalities associated with (A) . . . 88
Female pelvis
—, colpocystodefectography in preoperative staging of (A) . . . 281
Fetus
—, idiopathic neonatal hemochromatosis diagnosed in . . . 55
Fine-needle aspiration cytology
—, combined with CT, for lymph node staging of prostatic cancer (A) . . . 571
—, gastrointestinal lesions evaluated by (A) . . . 567
Fistula-in-ano
—, magnetic resonance imaging of (A) . . . 382
Focal nodular hyperplasia
—, computed tomography and ultrasonography of . . . 34
—, in liver cell adenoma, associated with portosystemic shunts 438
Fournier's gangrene
—, computed tomography of . . . 471
Fundic gland polyps
—, prevalence and clinicopathologic features of (A) . . . 281
Gallbladder
—, function after endoscopic sphincterotomy (A) . . . 184
—, perforation of . . . 239
—, relationship of sphincter of Oddi dysfunction and ejection fraction of (A) . . . 482
—, sludge formation after bone marrow transplant . . . 57
Gallbladder carcinoma
—, computed tomography of . . . 304
Gallbladder emptying
—, effect of ceruletide on . . . 235
—, in patients with diabetes or cholelithiasis . . . 427
Gallbladder volume
—, common hepatic duct dilatation and (A) . . . 570
Gallium 67 scintigraphy
—, primary cervical lymphoma followed by . . . 274
Gallstones
—, gallbladder emptying and common bile duct changes in patients with . . . 427
—, in pregnancy (A) . . . 88
—, role of ERCP in diagnosis of . . . 30
—, size of common bile duct in patients with . . . 251
—, treated by laparoscopic cholecystectomy (A) . . . 283
Gas gangrene
—, as complication of leukemia . . . 451
Gastric carcinoma
—, common variable immunodeficiency and . . . 501
—, comparison of techniques in TN staging of (A) . . . 85
—, computed tomography of (A) . . . 85
Gastric emptying
—, in chronic liver disease and portal hypertension (A) . . . 567
Gastritis cystica polyposa
—, diagnosis of . . . 8
Gastroduodenal intussusception
—, complication of Menetrier's disease . . . 207
Gastrointestinal lesions
—, endosonography and fine-needle aspiration cytology of (A) 567
Gastrointestinal radiology
—, present and future status of . . . 291
Gastrointestinal strictures
—, radiologically guided balloon dilatation of . . . 102
Gastrointestinal tract
—, after cardiac surgery . . . 405
—, echo planar MRI monitoring of (A) . . . 86
—, intubation of . . . 108
—, MRI of lymphoma in . . . 495
—, use of pirenzepine in double-contrast study of . . . 201
—, wall thickening in . . . 389
Gastropathy
—, radiologic sign of NSAID-related . . . 295
Gastrostomy
—, fluoroscopically guided, tube function and malfunction in 195
Gd-DTPA
—, ascites enhancement by (A) . . . 87
—, in MRI, bladder carcinoma assessed by (A) . . . 90
—, MRI of pancreas enhanced by (A) . . . 482
—, role in MRI of leiomyosarcoma of abdominal veins . . . 335
Graft-vs-host disease
—, videofluoroscopy of pharynx and esophagus in . . . 191
Hemangioma
—, of rectum and sigmoid . . . 18
Hematoma
—, developed after renal biopsy, ultrasound followup of . . . 72
Hemochromatosis
—, idiopathic neonatal, prenatal diagnosis of . . . 55
Hemodynamics
—, of left gastric vein in portal hypertension (A) . . . 183
Hemoperitoneum
—, in splenic trauma, CT demonstration of . . . 515
Hemorrhagic cystitis
—, cystoscopic clot evacuation in patients with . . . 177
Hemorrhoids
—, proctoscopic Doppler ultrasound in diagnostics and treatment of (A) . . . 282
Hepatic angiosarcoma
—, computed tomography of (A) . . . 283
Hepatic duct
—, intersegmental connection of bile duct and . . . 425
Hepatocellular carcinoma

—, combined with cholangiocarcinoma, clinical features and CT findings of (A) . . . 282
—, comparison of images with pathologic specimens of . . . 43
—, effects of preoperative transcatheter hepatic arterial chemoembolization for (A) . . . 382
—, mixed with cholangiocellular carcinoma, MRI of . . . 430
—, risk for, in patients with chronic liver disease (A) . . . 88
—, ultrasound-guided percutaneous alcohol injection treatment of (A) . . . 382
—, with tumor thrombus . . . 313
Hepatoma
—, intraperitoneal seeding from . . . 309
Histopathology
—, of mixed hepatocellular and cholangiocellular carcinoma, correlation with MRI . . . 430
Hydatid disease
—, magnetic resonance imaging of . . . 489
Hydronephrosis
—, ultrasound grading of (A) . . . 284
Hysterosalpingography
—, after hysteroscopic surgery for uterine abnormalities . . . 477
—, efficacy in evaluating endometriosis . . . 278
Idiopathic esophageal ulceration
—, in AIDS patients . . . 2
Iliofemoral vein thrombosis
—, caused by psoas abscess secondary to sigmoid diverticulitis 257
Incidentalomas
—, operative treatment of (A) . . . 285
Incontinence
—, use of anal endosonography in evaluation of (A) . . . 382
Inferior vena cava
—, hepatocellular carcinoma with tumor thrombus in . . . 313
—, secondary adrenal neoplasm in . . . 359
Infertility
—, hysterosalpingography after hysteroscopic surgery for treating 477
Inflammatory bowel disease
—, double-contrast barium enema and sigmoidoscopy for (A) . . . 568
—, ultrasonographic evaluation of the bowel wall in . . . 395
—, ultrasonography and MRI of . . . 403
—, ultrasonography of (A) . . . 381, 482
Inguinal hernia
—, computed tomography of (A) . . . 567
Instant enema
—, used in Crohn's colitis (A) . . . 86
Intestinal neoplasms
—, arteriovenous malformations and malignancy associated with 140
Intestinal obstruction
—, from adhesions (A) . . . 86
Intestinal pseudoobstruction
—, after cardiac surgery . . . 405
Intraarterial digital subtraction angiography
—, retrograde visualization of portal vein using . . . 330
Intraductal papillary carcinoma
—, of the pancreas . . . 229
Intrahepatic stones
—, combined interventional radiologic and surgical management of (A) . . . 569
Intraoperative assessment
—, in TN staging of gastric carcinoma (A) . . . 85
Intraperitoneal mass
—, malignant peritoneal mesothelioma presenting as . . . 27
Intraperitoneal seeding
—, from hepatoma . . . 309
Intrarenal arteries
—, pulsatility and resistance indices of . . . 369
Intravenous cholangiography
—, of choledochal cysts . . . 243
Intussusception
—, adult enteric, enteroclysis used in evaluating . . . 11
—, plain film diagnosis of (A) . . . 481
—, pneumatic reduction of (A) . . . 381
—, ultrasonography diagnosis of (A) . . . 481
Iron overload
—, hepatic, MR spectroscopy assessment of (A) . . . 569
Islet cell tumors
—, radiologic diagnosis of . . . 225
Juvenile polyposis
—, hereditary, arteriovenous malformations and risk of malignancy associated with . . . 140
Kidney
—, bowel position relative to . . . 446
—, calcification associated with secondary amyloidosis . . . 554
—, paroxysmal nocturnal hemoglobinuria in . . . 168
—, percutaneous fine-needle aspiration of tumor in . . . 174
—, regional lymphadenopathies and calculi in . . . 561
—, segmental prolonged cortical nephrogram resulting from radiation damage to . . . 556
Kidney donors
—, digital subtraction angiography of . . . 461
Kidney neoplasms
—, computed tomography of . . . 366
—, CT and MRI of . . . 67
—, duplex Doppler ultrasonography of (A) . . . 483
—, enucleation of . . . 361
—, fat suppression, Gd-enhanced MRI of . . . 549, 552
—, incidental discovery of (A) . . . 185
—, natural history of (A) . . . 384
—, related to age and arterial blood pressure (A) . . . 184
—, ultrasonography of (A) . . . 185
—, with extension to renal pelvis . . . 70
Kidney transplant
—, MRI of abscess in patient after . . . 267
—, reversed diastolic blood flow at duplex Doppler ultrasonography in (A) . . . 483
Kock pouch
—, radiological evaluation of . . . 116, 124
Laparoscopic cholecystectomy
—, complications of . . . 143
—, liver infarction following unrecognized right hepatic artery ligation at . . . 53
—, radiological and CT appearance after . . . 143
—, Surgicel mimicking abscess after . . . 345
Laparoscopy
—, ascites and pleural effusions in endometriosis confirmed by . . . 475
Large bowel
—, ultrasonography of inflammatory disease and tumors of (A) 381, 482
Larynx
—, cineradiograms and elevation of (A) . . . 182
Left gastric vein
—, in portal hypertension, hemodynamics of (A) . . . 183
Leiomyoma
—, as indicator of adult enteric intussusception . . . 11
—, of adrenal gland . . . 259
—, renal, CT and MRI of . . . 67
—, with extension to renal pelvis . . . 70
Leiomyosarcoma
—, retroperitoneal, computed tomography of . . . 298
—, retroperitoneal, Gd-DTPA MRI of . . . 335
Leukemia
—, lymphoblastic, complicated by clostridial gas gangrene . . . 451
Liver
—, arteriovenous malformations of, associated with juvenile polyposis . . . 140
—, calcification associated with secondary amyloidosis . . . 554
—, iron overload in (A) . . . 569
—, MRI detection of iron deposits in . . . 55
—, operative ultrasonography of (A) . . . 283
—, paroxysmal nocturnal hemoglobinuria in . . . 168
—, US, CT, and MRI of ciliated foregut cysts in . . . 150
Liver abscess

—, gas-containing, radiological findings of 47
Liver cell adenomas
—, associated with spontaneous intrahepatic portohepatic shunt 438
Liver disease
—, chronic, gastric emptying in (A) 567
—, chronic, risk factors for hepatocellular carcinoma among patients with (A) 88
—, computed tomography and ultrasonography of 34
—, granulomas due to visceral larva migrans in adults 253
—, imaging portal venous system in 330
—, laparoscopic ultrasonography for staging (A) 383
—, macroscopic intrahepatic portal-hepatic venous shunt not associated with 153
—, magnetic resonance imaging of 325
—, study of age specificity (A) 284
—, ultrasound-guided percutaneous alcohol injection in treatment of (A) 382
Liver infarction
—, following unrecognized right hepatic artery, ligation at laparoscopic cholecystectomy 53
Liver neoplasms
—, classical and unusual presentations of 543, 552
—, computed tomographic angiography or portography staging of 317
—, computed tomography and ultrasonography of 34
—, correlation of imaging and pathologic findings of 43
—, detection of 320
—, efficacy of CT and CTAP in predicting resectability of (A) . . . 569
—, fat suppression, Gd-enhanced MRI of 549, 552
—, from metastatic breast carcinoma, effect of chemotherapy on 39
—, imaging and pathological appearance of 540, 552
—, intraperitoneal seeding from 309
—, MRI or after intraarterial infusion of iodized oil 507
—, potentially resectable, CT imaging of (A) 183
—, preoperative diagnosis of 546, 552
—, tuberous sclerosis and 537
—, VIPoma and neuroendocrine tumor cases 433
Liver transplantation
—, duplex Doppler sonography vs. angiography in evaluating candidates for (A) 482
Lymphoepithelial cyst
—, of the pancreas 157, 232
Lymphoma
—, gastrointestinal, MRI manifestations of 495
—, radionuclide studies of 274
Magnetic resonance cholangiography
—, obstructive jaundice evaluated by (A) 283
Magnetic resonance imaging (MRI)
—, accuracy in detecting recurrent ovarian cancer (A) 90
—, anterior rectocele assessed by (A) 568
—, chemical fat saturation, in diagnosing ovarian cystic teratomas (A) 285
—, choledochal cyst during pregnancy diagnosed by 61
—, echo planar, upper gastrointestinal tract monitored by (A) 86
—, extent of colorectal mass lesions evaluated by (A) 182
—, Gd-DTPA-enhanced, of renal abscess 267
—, Gd-enhanced, of hepatorenal angiomyolipomas . . . 549, 552
—, of abdomen (A) 86
—, of abdominal hydatid disease 489
—, of abdominal pseudotumors and simulated lymphadenopathy 503
—, of adrenal leiomyoma 259
—, of annular pancreas 301
—, of ascites enhanced by Gd-DTPA (A) 87
—, of atypical myoid smooth muscle tumor of prostate 468
—, of Budd-Chiari syndrome 325
—, of cystosarcoma phyllodes of prostate 180
—, of fistula-in-ano (A) 382
—, of gastrointestinal lymphoma 495
—, of gastrointestinal wall thickening 389
—, of giant adrenal myelolipomas 165
—, of hepatic cavernous hemangioma 507
—, of hepatic foregut cysts 150
—, of hepatic granulomas due to visceral larva migrans 253
—, of hepatocellular carcinoma with tumor thrombus 313
—, of inflammatory bowel disease 403
—, of mixed hepatocellular and cholangiocellular carcinoma, correlation with histopathology 430
—, of pancreas, Gd-DTPA enhancement of (A) 482
—, of pancreatic apudomas (A) 184, 284
—, of paroxysmal nocturnal hemoglobinuria in kidneys, liver, and spleen 168
—, of peritoneal implants 95
—, of renal calculi 561
—, of renal leiomyoma 67
—, prenatal diagnosis of idiopathic neonatal hemochromatosis with 55
—, primary cervical lymphoma followed by 274
—, staging of bladder carcinoma by (A) 90
—, urinary incontinence studied by (A) 285
—, with Gd-DTPA, bladder carcinoma assessed by (A) 90
—, with Gd-DTPA, of retroperitoneal leiomyosarcoma 335
Magnetic resonance spectroscopy
—, hepatic iron overload in thalassemic patients assessed by (A) 569
Malignant mesenchymoma
—, computed tomography of 82
Malignant peritoneal mesothelioma
—, computed tomography of 27
Manometry
—, fecal incontinence evaluated by (A) 568
Menetrier's disease
—, gastroduodenal intussusception secondary to 207
Mesenteric artery
—, Behçet's disease as cause of aneurysm in 333
Mesenteric cyst
—, milk of calcium in 347
Mesenteric venous thrombosis
—, intestinal infarction secondary to (A) 86
Mesenteric vessels
—, CTAP for detecting involvement in pancreatic adenocarcinoma 413
Milk of calcium
—, in mesenteric cyst 347
Myelolipoma
—, of adrenal gland 165
Nasointestinal tube
—, for decompression or enteroclysis 108
Nephrocalcinosis
—, coexisting with cholelithiasis and umbilical vein calcification in premature infant 559
—, induced by acetazolamide 466
Neuroendocrine carcinoma
—, with VIPoma in liver only 433
Nodular duodenum
—, clinical and pathologic features of (A) 85
Nonsteroidal antiinflammatory drugs (NSAIDs)
—, role in greater curvature antral flattening 295
Nontumorous low attenuation defects
—, in left hepatic lobe found during CT arterial portography (A) 87
Nuclear grade
—, of renal cell carcinoma, correlation with CT images 262
Obstructive jaundice
—, magnetic resonance cholangiography of (A) 283
Obstructive uropathy
—, renal hemodynamics in (A) 89
Oral cholecystography
—, with fatty meal, compared with ultrasound for evaluating gallbladder emptying 235
Ovarian cystic teratomas
—, chemical fat saturation MRI in diagnosing (A) 285
Ovarian neoplasms

—, angiogenesis assessed by color Doppler ultrasonography (A) 483
—, CT and MRI in detecting recurrence (A) 90
Pancreas
—, Castleman disease localized in 160
—, Gd-DTPA-enhanced MRI of (A) 482
—, lymphoepithelial cyst of 157
—, operative ultrasonography of (A) 283
—, short, associated with polysplenia syndrome 64
Pancreas divisum
—, incomplete, annular pancreas in patient with 301
—, traumatic pancreatitis in patient with 162
Pancreatic abnormalities
—, magnetic resonance imaging of 301
Pancreatic disease
—, laparoscopic ultrasonography for staging (A) 383
Pancreatic duct
—, AIDS-related changes in 417
—, insulin-dependent diabetes mellitus and abnormality of (A) 570
Pancreatic fluid collections
—, infected, percutaneous drainage of (A) 383
Pancreatic mass
—, malignant peritoneal mesothelioma presenting as 27
Pancreatic neoplasms
—, angiography of (A) 184, 284
—, computed tomography of (A) 89, 184, 221, 284
—, CTAP detection of involvement of mesenteric vessels and portal vein in 413
—, cystic islet cell tumors as 225
—, effect of chemical splanchnicectomy on pain caused by (A) 89
—, intraductal, villous tumors as 229
—, lymphoepithelial cyst as 232
—, magnetic resonance imaging of (A) 184, 284
—, portal vein invasion in (A) 570
—, ultrasonographic findings of 221
Pancreatitis
—, after cardiac surgery 405
—, annular pancreas in patient with 301
—, colonic complications of (A) 381
—, traumatic, pancreas divisum in patient with 162
Paraesophageal venous collaterals
—, influence on accuracy of endoscopic sclerotherapy for esophageal varices (A) 481
Parencymal thickness
—, correlated with renal length (A) 384
Paroxysmal nocturnal hemoglobinuria
—, MRI of kidneys, liver, and spleen of patients with 168
Pelvic fracture
—, bladder rupture and (A) 90
Pelvic mass
—, ectopic supernumerary kidney as 374
Pelvic tumor
—, direct invasion of colonic wall by 21
Pelvis
—, Crohn's disease and (A) 87
Penile cancer
—, ultrasonography vs. histology in staging of (A) 571
Percutaneous drainage
—, infected pancreatic fluid collections managed by (A) 383
—, ultrasound-guided, of pyogenic splenic abscesses (A) . . . 482
Percutaneous transhepatic biliary drainage
—, guided by color Doppler echography 147
Percutaneous transhepatic cholangiography
—, of choledochal cysts 243
Periampullary cancer
—, computed tomography assessment of (A) 284
Periportal low-attenuation zones
—, following blunt abdominal trauma in children (A) 186
Peritoneal implants
—, MRI demonstration of 95
Peritoneal nodules
—, malignant peritoneal mesothelioma presenting as 27
Peutz-Jeghers
—, as indicator of adult enteric intussusception 11
Pharynx
—, videofluoroscopy of, in graft-vs-host disease 191
Pirenzepine
—, in double-contrast study of upper GI tract 201
Pleural effusions
—, associated with endometriosis 475
Pneumatosis cystoides intestinalis
—, computed tomography of 137
Polypoid cholangitis
—, AIDS-related, radiological and pathological features of (A) 283
Polysplenia syndrome
—, associated with portal vein, pancreatic, and vena cava abnormalities 64
Portal hypertension
—, cirrhotic, endoscopic ultrasonographic evaluation of (A) . . 183
—, duplex Doppler measurements of portal vein in (A) 283
—, gastric emptying in (A) 567
—, multiple reflective channels in spleen of patients with . . . 453
Portal vein
—, CO_2 intraarterial digital subtraction angiography of 330
—, CTAP for detecting involvement in pancreatic adenocarcinoma 413
—, duplex Doppler measurements of (A) 283
—, transhepatic, associated with polysplenia syndrome 64
Portal vein invasion
—, in pancreatic cancer, ultrasonography of (A) 570
Portal-hepatic venous shunt
—, without chronic hepatic disease, hemodynamics of 153
Pregnancy
—, biliary sludge and gallstones in (A) 88
—, complicated by choledochal cyst 61
Premature infant
—, nephrocalcinosis, cholelithiasis, and umbilical vein calcification in 559
Priapism
—, idiopathic segmental thrombosis of corpus cavernosum caused by 564
Primary cervical lymphoma
—, residual mass after treatment of 274
Prostate
—, atypical myoid smooth muscle tumor of 468
—, cystosarcoma phyllodes in 180
Prostate cancer
—, combined CT and fine-needle aspiration cytology in lymph node staging of (A) 571
—, computed tomography findings after surgery for (A) 185
—, transrectal, ultrasonography for staging (A) 185
Prostatectomy
—, pelvic CT findings after (A) 185
Protocolectomy
—, continent ileostomy reservoirs created after 116, 124
Pseudodiverticulosis
—, ureteral metastases appear as 376
Psoas abscess
—, iliofemoral vein thrombosis caused by 257
Psoas muscle
—, bowel position relative to 446
Pulsatility index
—, in intrarenal arteries, duplex Doppler ultrasound of 369
Radiation nephritis
—, resulting from renal radiation therapy 556
Radiography
—, acetazolamide-induced nephrocalcinosis diagnosed by . . . 466
Radiology

—, contrast, barium sulfate or nonionic low-osmolar contrast media in (A) . . . 481
—, depth of invasion and histologic type in early gastric cancer studied by . . . 521, 532
—, evaluation of continent ileostomy reservoir using . . . 116
—, findings of complications of continent ileostomy reservoirs using 124
—, imaging of laparoscopic cholecystectomy complications using 143
—, of cystic renal cell carcinoma (A) . . . 483
—, of gas-containing liver abscess . . . 47
Radionuclide esophageal transit
—, study of chest pain with . . . 84
Rectal carcinoma
—, CT staging and detection of recurrence of . . . 441
Rectal ulcer syndrome
—, transrectal ultrasound study of (A) . . . 282
Rectum
—, hemangioma in . . . 18
Renal abscess
—, gadolinium DTPA-enhanced MRI of . . . 267
Renal allografts
—, antegrade pyelography study of pelvicalyceal dilatation in (A) 285
Renal biopsy complications
—, ultrasound assessment of . . . 72
Renal calculi
—, ultrasonography and MRI of . . . 561
Renal cell carcinoma
—, computed tomography after enucleation of . . . 361
—, CT imaging and nuclear grading of . . . 262
—, cystic, radiology and histology of (A) . . . 483
—, ultrasonography of (A) . . . 185
Renal cysts
—, age and arterial blood pressure related to (A) . . . 184
—, age specificity and (A) . . . 384
—, in adult, history of . . . 366
—, specificity data for (A) . . . 284
Renal leiomyoma
—, CT and MRI of . . . 67
—, with extension to renal pelvis . . . 70
Renal length
—, correlated with parenchymal thickness (A) . . . 384
Renal masses
—, characterized by color flow Doppler ultrasonography (A) . . . 89
—, duplex Doppler ultrasonography of (A) . . . 483
—, incidental discovery of (A) . . . 185
Renal trauma
—, radiologic evaluation of (A) . . . 571
Resistance index
—, in intrarenal arteries, duplex Doppler ultrasound of . . . 369
Retrograde air insufflation
—, use in MRI of abdominal pseudotumors and simulated lymphadenopathy . . . 503
Retrograde cholangiography
—, of AIDS-related cholangitis . . . 417
Retroperitoneum
—, Castleman disease in . . . 342
—, MRI of leiomyosarcoma of . . . 335
Retroperitoneum
—, gastric metastases from leiomyosarcoma in . . . 298
—, malignant mesenchymoma in . . . 82
Right atrium
—, hepatocellular carcinoma with tumor thrombus in . . . 313
Sarcomas
—, originating in small bowel . . . 339
Scopolamine methylbromide
—, in double-contrast study of upper GI tract . . . 201
Scrotum
—, computed tomography findings of gangrene in . . . 471
Sequential diagnostic peritoneal lavage
—, blunt abdominal trauma treated by (A) . . . 185
Shunts
—, occlusion or stenosis of, after TIPS placement (A) . . . 569
—, portohepatic, hemodynamics of . . . 153
—, portosystemic, associated with liver cell adenomas . . . 438
Sigmoid diverticulitis
—, complications of . . . 257
Sigmoidoscopy
—, colonic investigation by (A) . . . 568
Small bowel
—, double-contrast examinations of (A) . . . 86
Small bowel disease
—, correlation with normal small bowel enteroclysis . . . 113
Small bowel diverticula
—, sarcomas originating in . . . 339
Small bowel obstruction
—, contrast radiography in (A) . . . 481
—, strangulation in (A) . . . 567
—, use of nasointestinal tube in treating . . . 108
Small intestine
—, role of carcinoid diarrhea in motor dysfunction of (A) . . . 281
—, ultrasonography of inflammatory disease and tumors of (A) 381, 482
Somatostatin scintigraphy
—, of neuroendocrine tumors (A) . . . 383
Sphincter of Oddi
—, relationship of gallbladder ejection fraction and dysfunction of (A) . . . 482
Sphincterotomy
—, endoscopic, gallbladder function after (A) . . . 184
Spleen
—, abnormalities of . . . 64
—, fluid accumulation patterns after trauma to . . . 515
—, paroxysmal nocturnal hemoglobinuria in . . . 168
—, reflective channels in as sign of portal hypertension . . . 453
—, ultrasound-guided percutaneous drainage of pyogenic abscesses of (A) . . . 482
Stenosis
—, balloon dilatation as treatment for . . . 102
Stomach
—, effect of NSAIDs on . . . 295
Stomach neoplasms
—, common variable immunodeficiency and development of . . . 501
—, computed tomography of . . . 8
—, from retroperitoneal leiomyosarcoma . . . 298
—, radiological prediction of depth of invasion of . . . 521, 532
—, transabdominal ultrasound staging of . . . 527, 532
Subhepatic fluid
—, percutaneous drainage of . . . 248
Surgicel
—, postoperative abscess mimicked by . . . 345
Testes
—, dislocation of by blunt trauma . . . 379
—, ultrasonography diagnosis of blunt trauma to (A) . . . 384
Thrombosis
—, idiopathic segmental, partial priapism caused by . . . 564
Toxocariasis
—, ultrasonography and MRI appearance of . . . 253
Transcatheter arterial chemoembolization (TAE)
—, for hepatocellular carcinoma (A) . . . 382
Transitional cell carcinoma
—, from needle tract seeding . . . 174
Transjugular intrahepatic portosystemic shunt (TIPS)
—, appraisal of (A) . . . 87
—, occlusion and stenosis after placement of (A) . . . 569
Transrectal ultrasonography
—, in predicting organ-confined prostate cancer (A) . . . 185
—, rectal ulcer syndrome studied by (A) . . . 282
Tuberculosis

—, abdominal, sonographic findings in (A) 382
Tuberous sclerosis
—, hepatic angiomyolipomas and 537
—, hepatorenal angiomyolipomas and 549, 552
Tumor seeding
—, following fine-needle aspiration 174
Tumor thrombus
—, of hepatocellular carcinoma, in inferior vena cava and right atrium 313
Ulcerative colitis
—, continent ileostomy reservoirs created after 116, 124
—, differential diagnosis of Crohn's disease and 395
Ultrasonography
—, accuracy of diagnosis of acute appendicitis by (A) 182
—, angiogenesis of ovarian neoplasms assessed by (A) 483
—, assessment of role after renal biopsy 72
—, bowel wall in inflammatory bowel disease evaluated by . . . 395
—, color Doppler, of atypical myoid smooth muscle tumor of prostate 468
—, color Doppler, of small abdominal aneurysms 410
—, color Doppler, of wandering spleen with torsion 459
—, color Doppler, renal masses characterized by (A) 89
—, duplex Doppler, of portal vein flow (A) 283
—, duplex Doppler, of renal masses (A) 483
—, duplex Doppler, preoperative evaluation of liver transplant candidates by (A) 482
—, duplex Doppler, pulsatility and resistance indices in intrarenal arteries studied by 369
—, duplex Doppler, renal hemodynamics in obstructive uropathy evaluated by (A) 89
—, duplex Doppler, reversed diastolic blood flow in renal transplants seen by (A) 483
—, endoanal, and sphincter defects identified by (A) 183
—, endorectal, of atypical myoid smooth muscle tumor of prostate 468
—, endoscopic, choledocholithiasis diagnosed by (A) 570
—, endoscopic, colonic wall invasion by adjacent diseases assessed by 21
—, endoscopic, gastrointestinal lesions evaluated by (A) 567
—, endoscopic, in treating bleeding hemorrhoids (A) 282
—, endoscopic, of esophageal carcinoma (A) 567
—, endoscopic, of rectum in cirrhotic portal hypertension (A) . . . 183
—, endovaginal, detection of Crohn's ileitis by 400
—, gallbladder emptying with ceruletide evaluated by 235
—, inflammatory disease and tumors of small intestine and large bowel studied by (A) 381, 482
—, intraportal endovascular, portal vein invasion in pancreatic cancer diagnosed by (A) 570
—, intussusception diagnosed by (A) 481
—, laparoscopic, gastrointestinal malignancies staged by (A) . . 383
—, of abdominal tuberculosis (A) 382
—, of biliary tree in patients with atypical chest pain (A) . . . 482
—, of blunt testicular trauma (A) 384
—, of choledochal cysts 243
—, of eosinophilic cystitis 270
—, of gallbladder perforation 239
—, of hepatic angiomyolipoma 540, 552
—, of hepatic focal nodular hyperplasia 34
—, of hepatic foregut cysts 150
—, of hepatic granulomas due to visceral larva migrans 253
—, of inflammatory bowel disease 403
—, of liver neoplasms, pathologic correlation with images from 43
—, of pancreatic lymphoepithelial cyst 232
—, of renal calculi 561
—, of squamous cell carcinoma of penis (A) 571
—, operative, during hepatobiliary and pancreatic surgery (A) . . . 283
—, pancreatic carcinoid tumors diagnosed by 221
—, renal carcinoma diagnosed by (A) 185
—, renal cyst prevalence studied by (A) 384
—, showing gallbladder sludge formation after bone marrow transplant 57
—, splenic reflective channels as sign of portal hypertension seen by 453
—, strangulation in small bowel obstruction diagnosed by (A) 567
—, survey of renal cyst prevalence using (A) 284
—, transabdominal, Crohn's disease or recurrence studied by (A) 381
—, transabdominal, of early gastric cancer 527
—, transanal, fecal incontinence evaluated by (A) 568
—, transrectal, chronic hematospermia assessed by (A) 571
—, transrectal, in predicting organ-confined prostate cancer (A) 185
—, transrectal, of rectal ulcer syndrome (A) 282
—, usefulness of Courvoisier's sign in (A) 570
—, with plain film, compared with urography in ureteric colic (A) 89
Umbilical vein calcification
—, coexisting with nephrocalcinosis and cholelithiasis in premature infant 559
Unilateral renal cystic disease
—, in adult, history of 366
Ureter
—, pseudodiverticular pattern of metastatic malignancy in 376
Ureteropelvic junction obstruction
—, diuretic renography used in 78
Urinary bladder
—, rupture following cystoscopic clot evacuation 177
Urinary tract
—, colorectal cancer associated with congenital anomalies of (A) 87
Urography
—, compared with ultrasonography with plain film in ureteric colic (A) 89
—, potential live-kidney donors studied by 461
Uterine abnormalities
—, hysterosalpingography after hysteroscopic surgery for . 477
Vena cava
—, left inferior, associated with polysplenia syndrome . . 64
Videofluoroscopy
—, of pharynx and esophagus in graft-vs-host disease . . 191
Villous tumors
—, intraductal papillary carcinoma of pancreas as 229
VIPoma
—, with neuroendocrine tumor in liver only 433
Visceral larva migrans
—, hepatic granulomas in adults due to 253
Whipple procedure
—, effect of preoperative visceral angiography on (A) . . 88
